Estimating and Rounding

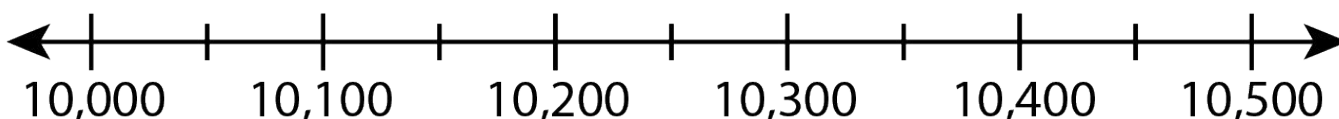

Rounding to the Nearest 10

_____ is between _____ and _____.

It is closer to _____.

Rounding to the Nearest 100

_____ is between _____ and _____.

It is closer to _____.

To estimate, I...

- find which two multiples of 10, 100, 1,000, or 10,000 a number is between.
- determine which multiple is the number closest to.
- round to the closest multiple.

Compatible Numbers-"friendly" numbers

Find ways to estimate the total using compatible numbers:

$$14 + 173 + 46 = ?$$

Estimate	Actual Total
$10 + 170 + 50 = 230$	233
$15 + 175 + 45 = 235$	233
$10 + 170 + 45 = 225$	233
